

FlashAccessory™

INSIDE & OUTSIDE CORNERS

PVC Low Slope Systems

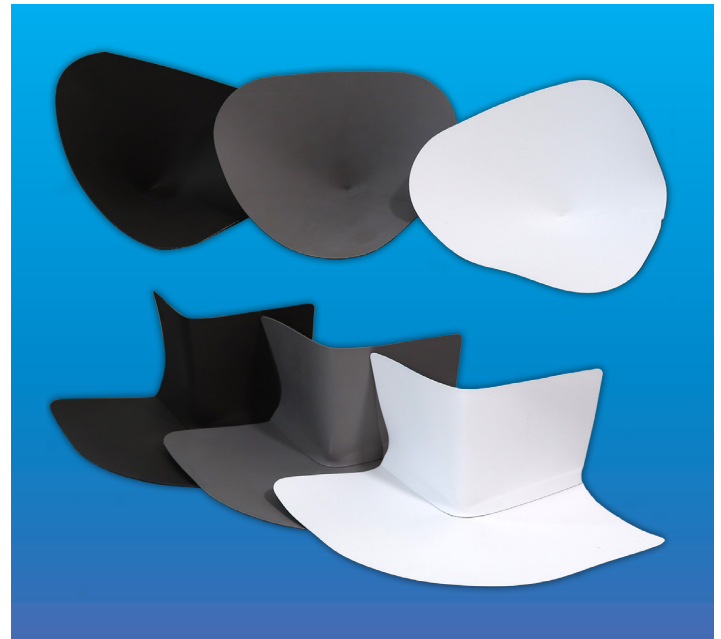

OVERVIEW

FlashCo's PVC FlashAccessory Inside and Outside Corners are Factory Certified prefabricated flashings made from 60 mil reinforced PVC membrane. They are designed to provide a 6" flange in all directions from potential leak points at corners. FlashCo offers both inside and outside corner designs for interior facing 90° parapets and concave corners as well as exterior facing 90° curbs and convex corners.

Custom sizes & colors available.

INSTALLATION

1. Center the corner where both vertical faces meet and intersect the roof deck
2. Begin welding at the centermost point, progressively working outwards
3. Probe the edge of the membrane on all three faces

Colors Shown L-R: Dark Bronze, Slate Gray, White

FEATURES AND BENEFITS

- Saves up to 60% of labor compared to field fabrication
- Better fit and more uniform appearance than field flashing
- Reinforced membrane provides more strength at critical points

SAVING THE CONTRACTOR TIME

- **FlashCo's Brand Promise is Speed:** shipping 90% of orders within 3 days.
- 24/7/365 Online Contractor Portal and additional time-saving tools
- Most orders delivered on FlashCo's own delivery trucks
- Get off the roof sooner
